Drew Spooner

(512) 740-7362 • College Station, Texas • drewspooner@tamu.edu • drewspooner.com

OBJECTIVE

I am a senior Computing (Computer Science) major, studying both Computer Science and Visual Design, looking for an internship position during the Summer 2021 (May-August) period in the field of software engineering.

EXPERIENCE

Graphic Layout Artist   Aug. 2019 - Present
Texas A&M Rec Sports | College Station, Texas
- Create original promotional materials for the Student Recreation Center marketing department
- Produce weekly branded content in partnership with corporate sponsors
- Designed the 2020 Annual Report which was adopted as the standard for many departments under Student Activities

EDUCATION

Texas A&M University | Bachelor of Arts in Computing   Expected Dec. 2021
- GPA: 3.35/4.0
- Minor in Arts & New Media

LEADERSHIP & INVOLVEMENT

Service Officer   Dec. 2019 - Dec. 2020
Century Men's Society | Texas A&M University
- Facilitated organization-wide community service of 90 members in the Bryan & College Station area and beyond
- Awarded title of "Rookie of the Year" for personally fundraising $400+ and volunteering 20+ hours per semester

Chairperson   Nov. 2019 - Nov. 2020
Fish Camp Orientation Program | Texas A&M University
- Selected from a competitive pool of 250+ applicants for the largest student-run college orientation program
- Recruited, interviewed, and evaluated candidates for the counselor position from a set of 2,200+ applicants
- Led and mentored a group of 24 counselors through counselor trainings and their camp experience through the first ever virtual Fish Camp program due to COVID-19 precautions

PROJECTS

NCAA Player Database | SQL, Java
- Created a GUI interface for a PostgreSQL database of NCAA Football data
- Implemented player search engine, which gathered stats about specific players
- Designed an original algorithm which determined which college football teams had statistical home field advantages

Job Search Site | HTML, CSS, Javascript
- Wrote API requests from job board sites such as Glassdoor, LinkedIn, etc.
- Sourced a list of Summer 2020 intern program cancellations due to COVID
- Constructed all of the front-end website interactions with HTML/CSS on a Django framework

Slack Bot | Node.js
- Built a for-fun serverless bot using StdLib which sent welcome, farewell, and anonymous user broadcast messages in student organization Slack channels

Question Ball | HTML, CSS
- Recreated virtual version of popular freshmen orientation program icebreaker game as a web platform

SKILLS

C++ | Java | HTML | CSS | MATLAB | SQL (familiar) | Adobe Photoshop, InDesign, Illustrator
